

*Draft for Public Review - May 21*

# Certificate II in Accessory Fitting

**PwC's Skills for Australia**

## Relevant job role

Accessory Fitter

## Proposed new qualification

Certificate II in Accessory Fitting

## Description

Describes the intended outcome/s of the qualification as well as any licencing/regulatory requirements related to the job role.

This qualification reflects the role of individuals who perform a range of tasks relating to replacing, fitting, installing and adjusting automotive accessories in the automotive service and repair industry. This is an entry level role designed for a range of roles in accessory fitting.

## Core skills

Skills that all learners must have that are critical and relevant across all accessory fitting roles.

- Follow environmental and sustainability best practice in an automotive workplace
- Read and respond to automotive workplace information
- Follow safe working practices in an automotive workplace
- Apply knowledge of automotive electrical circuits and wiring systems
- Install basic ancillary electrical systems and components
- Apply knowledge of ADAS technology in vehicle pre-repair scans
- Replace and refit vehicle steering, suspension and braking components
- Remove, inspect and refit light vehicle wheel and tyre assemblies
- Remove and tag steering, suspension and braking system components
- Use and maintain tools and equipment in an automotive workplace

## Key questions

- 1 Do you agree there is need for a new qualification for accessory fitting?
- 2 Are these the right core skills? Are these the right elective skills?
- 3 Are there any skills missing or should be added? Are there any skills that should be removed?
- 4 Do you agree with the broad range of skills rather than specialisations?
- 5 Do you agree with the inclusion of knowledge of ADAS in the core bank?

## Elective skills (continued on next page)

Skills that learners can choose to undertake specific to their workplace or job role.

- Respond to customer needs and enquiries in an automotive workplace
- Communicate effectively in an automotive workplace
- Work effectively with others in an automotive workplace
- *(continued next page)*

## Elective skills (continued from previous page)

Skills that learners can choose to undertake specific to their workplace or job role.

- Communicate business information in an automotive workplace
- Install automotive security systems and components
- Install vehicle lighting and wiring systems
- Install ancillary electronic systems and components
- Install in-vehicle entertainment and convenience systems
- Read and apply vehicle wiring schematics and drawings
- Remove and refit vehicle batteries
- Select and install performance enhanced suspension system products
- Select light vehicle tyres and wheels for specific applications
- Install marine electrical systems and components
- Apply sales procedures in an automotive workplace
- Assemble and fit braking system components
- Inspect and service braking systems
- Inspect and service steering systems
- Inspect and service suspension systems
- Balance wheels and tyres
